CAREER OBJECTIVE

A passionate Junior Frontend Developer with a Diploma in Engineering, experienced in building responsive and interactive web applications using the MERN stack. I am eager to contribute to impactful real-world projects while continuously growing my skills in modern web technologies. My goal is to join a forward-thinking team where I can develop scalable, user-centric applications and grow into a full-stack role.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+)

Frameworks: React.js, Next.js (learning)

Backend: Node.js, Express.js

Database: MongoDB, Firebase

Tools: Git, GitHub

INTERPERSONAL SKILLS

Problem-Solving | Team Collaboration | Attention to Detail | Adaptability

PROJECTS

SkillSphere – Online Learning Platform

Tech Stack: JavaScript, React.js, Node.js, Express.js, MongoDB

Live: [View Live](#) | **Client:** [GitHub Client](#) | **Server:** [GitHub Server](#)

A full-featured online learning platform where students can browse, enroll in, and complete courses with a seamless user experience.

- User authentication with secure login and registration system
- Dynamic course listings with search and filter functionality
- Responsive UI built with React and Tailwind CSS for all screen sizes
- Role-based access for students and instructors

KeenKeeper – Task Management App

Tech Stack: JavaScript, React.js

Live: [View Live](#) | **Client:** [GitHub Client](#)

An intuitive task and note management web application that helps users organize their daily activities efficiently.

- Create, edit, and delete tasks with an easy-to-use interface
- Organize tasks into categories with priority labeling
- Persistent state management for seamless user experience
- Clean, minimalistic component architecture with reusable UI elements

IdeaVault – Idea Management Platform

Tech Stack: JavaScript, React.js, Node.js, Express.js, MongoDB

Live: [View Live](#) | **Client:** [GitHub Client](#) | **Server:** [GitHub Server](#)

A collaborative idea management platform where users can capture, organize, and share ideas with others in a structured and intuitive interface.

- Submit and browse ideas with category-based organization
- User authentication with profile management
- Voting and interaction system for community-driven idea ranking
- Responsive design with clean component-based architecture
